RAIN FOREST ACTIVITY BOOK

RAIN FOREST FUN FACTS

The Amazon Rainforest is about 1,864 miles wide and has more than 1,000 species of animals.

The jaguar, the largest land animal in the Amazon, can weigh up to 212 pounds, can grow to 6 feet, 4 inches long, and has the most powerful jaws of all of the big cats.

The biggest water-dwelling mammal is the Amazon manatee. A distant relative of the elephant, a manatee can grow up to 9 feet long and weigh up to 2,000 pounds.

The pygmy marmoset is one of the world's smallest monkeys. An adult marmoset weighs about 3 ½ ounces, about 5 inches long, and can rest on an adult's finger.

RAINFOREST CRAFT

Did you ever think you could turn your foot into a topical bird? Here's how.

Trace your foot on a sheet of paper.

Use the heel of your tracing as the head.

Draw an eye and a beak.

Draw additional tail feathers next to the big toe.

Color your bird with bright colors.

Add a tree branch for your bird to rest on.
