

About the Logo

“The rainbow stands for girls and happiness. The rainbow also stands for God’s promise. The race car stands for boys and strength. The driver in the race car is me because I’m the founder. The blue cloud is there because it stands for moving ahead.”

“This logo was designed by Amanda Yohe, a graphic designer who donated her services to me. She is the daughter of my home-school teacher Mrs. Margaret Yohe.

At first I thought that home-school was going to be boring and not as fun as school. But, Mrs. Yohe made it fun for me. I think that she is very nice and kind, and very generous. She was a great home-school teacher because she helped me and didn’t treat me different than the teachers at school would. I remember when she even let me eat while working and she would play with me at our recess. I even remember when she gave me playing cards.”

“I hope that people will appreciate my logo. I hope they will like it and be inspired to do something nice by it.”
